

# THERMOSTATIC CONTROL VALVES

Thermostatic Circulation  
of Domestic Hot Water

## Frese CirCon

Thermostatic control valve

### Technical Data

<b>Size range:</b>	<b>DN15 to DN20</b>
Maximum DP:	100 kPa
Pressure rating:	PN10
Material:	Stainless Steel AISI 316
Temperature range:	37°C to 65°C
Preset temperature:	52.5°C

## Frese TemCon

Thermostatic control valve with high temperature hot water bypass

### Technical Data

<b>Size range:</b>	<b>DN15 to DN20</b>
Maximum DP:	100 kPa
Pressure rating:	PN10
Material:	Stainless Steel AISI 316
Temperature range:	37°C to 65°C
Preset temperature:	57°C
HTHW Bypass:	70°C to 80°C
